DKIM Setup Instructions

STEP 1: Implement DKIM using the following instructions.
   a. Note: This is the most used DNS server syntax; some DNS servers may require placing a "\" before the ";".
   b. Once complete, move on to STEP 2.

STEP 2: Check the status record.
   a. Check the status of the Selector record by copying and pasting the link below into your browser.
   b. Before moving on to STEP 3, make sure the TXT record on DNS Watch matches the one provided in STEP 1.

STEP 3: Send a test RMail message for confirmation.
   a. Send a test Track & Prove or Encrypted email to dkim@rpost.com and Cc your RMail representative.
   b. An RMail technical advisor will confirm the setup was successful by email typically within 48-hours of receiving the test RMail message.
